❯ ASK NSF: GRANTEE CASH MANAGEMENT AND GRANTS OFFICIALS – “WHAT WE DO” .............Booth 114
WWW.NSFGOV/
- Manages ACMS (the NSF award payment processes)
- Monitors awardee compliance with cash management and financial reporting requirements
- Administers the Research.gov financial services
- Reconciles awardee payment and expenditure information to the NSF Award System and NSF iTRAK - core financial management system
- Provides subject matter expertise for post award financial management
- Advises NSF staff and awardees on the financial requirements of NSF awards
- Conducts outreach to awardee institutions

❯ ASSOCIATION OF CLINICAL RESEARCH PROFESSIONALS (ACRP) .............................................Booth 316
WWW.ACRPNET.ORG
We are improving quality in clinical research by directly impacting the professionals conducting clinical trials.

The Association of Clinical Research Professionals (ACRP) is setting standards for clinical research competence and workforce development. A Washington, DC-based non-profit organization with more than 13,000 members, ACRP supports professionals and organizations across the clinical research enterprise with the Membership, Training, and Certification programs necessary for clinical trial quality and efficiency improvements.

Talent Acquisition
Meet your hiring needs by leveraging our unique solutions for reaching the most qualified network of clinical research professionals.

Staff Training
Stay focused on your core business by taking advantage of our standardized, competence-based online and in-person training programs.

Advertising
Increase your brand exposure and deliver your message to key influencers and decision makers wherever they are.

Don’t Miss Out on the ACRP 2019 Annual Conference!
Join thousands of clinical research professionals at the premier continuing education and networking event for clinical research professionals. April 12-15, 2019 in Nashville! ACRP 2018 is the venue for learning the practical strategies, best practices, and creative solutions needed to improve clinical trial quality.

❯ ATTAIN .....................................................Booth 305
WWW.ATTAIN.COM
Based in McLean, Va., Attain is a management, technology, and strategy consulting firm comprised of innovative problem solvers who deliver tangible results to address today’s complex higher education, health, and public sector challenges. Attain’s transformative services and solutions deliver market-leading results to our customers across the nation in the higher education, academic medical center, and non-profit communities, as well as the health and government markets.

❯ A-TUNE SOFTWARE INC. ......................Booth 117
WWW.A-TUNE.COM
a-tune software INC. is a provider of regulatory compliant software for medical research. We currently have over 100 installations in 18 countries. Our flagship product, tick@lab, supports management of IACUC, IRB, IBC, and COI. These modules are fully integrated with our Facility Management Software which includes Protocol Management, Transgenic Breeding, Capacity Planning, Task Management, Accounting, Facility Management, and Vet Records. A Data Mart is provided to ensure customized reporting and integration. Can be used with a Mac, PC, Tablet, I-Pad, with any browser.
Exhibitor Abstracts

❯ AXIOM MENTOR .....................................Booth 307
WWW.AXIOM-MENTOR.COM

Axiom Mentor’s online compliance modules streamline protocol submissions, reviews, approvals, and post-approval reporting. Mentor saves time and money by reducing administrative tasks for researchers and workload for support staff. Built by researchers and compliance professionals, the Axiom Mentor system provides you with an intuitive, responsive interface that is configured to your workflow and policies. Axiom Mentor compliance modules include IRB, IACUC, IBC, Grants Management and CoI.

Axiom’s Mentor IRB software is a fully online protocol management system. The Mentor IRB software supports multiple IRBs and allows each to manage the review process from investigator submission to continuing reviews and adverse event reporting. Mentor’s IRB software is customizable to your institutions workflow.

Modeled on our popular Mentor IRB system, the Mentor IACUC system is a fully online protocol management system designed to facilitate all aspects of IACUC proposal review, monitoring, reporting and archiving. Mentor IACUC is fully configurable to meet the particular practices of each institution.

Mentor IBC helps you manage the increasingly complex regulatory and compliance process.

The latest module to be released by Axiom, Mentor Grants Management is designed for the grants administrator to track detailed progress on grant applications and subsequent follow-up on awarded grants.

Mentor CoI - soon to be released!

All Mentor modules are a fully hosted SaaS solution. We manage all backups, security (PCI Certified), data encryption and upgrades. Our software integrates with popular client identity management systems (LDAP, CAS, Shibboleth).

❯ BAD RABBIT ......................................Booth 216
WWW.BADRABBIT.COM/#/HOME

NCURA SILVER CONTRIBUTING SPONSOR

We’re Bad Rabbit, experts in Research Administration Technology, and trusted partners to some of the world’s most respected research institutions. We’re uniquely positioned to help you get the most out of your IRB, Grants, IACUC, IBC, COI and other research compliance sites. From analytics and data visualization for research administration to implementation, custom development, integration with other platforms, or even day-to-day site management, we’ve got you covered.

❯ BAKER TILLY ....................................Booth 302
HTTP://BAKERTILLY.COM/HIGHER-EDUCATION

NCURA SILVER PLUS CONTRIBUTING SPONSOR

Accountants and Advisors

Achieving project aims, meeting sponsor expectations and making the world a better place are the goals. However, the ever-growing list of regulations, restrictions and unfunded mandates facing higher education and research institutions can be daunting to navigate. But we can help.

Baker Tilly is a full-service accounting and advisory firm serving over 350 higher education and research institutions nationwide. Our dedicated practitioners give you access to the industry’s best thinking to help you achieve your research strategy, manage risks and successfully administer sponsored projects.

Visit us at our booth or at bakertilly.com/higher-education to learn how we can help you drive your research objectives.

WWW.DIGITAL-SCIENCE.COM

Digital Science is a technology company working to make research more efficient. We invest in, nurture and support innovative businesses and technologies that make all parts of the research process more open and effective. We believe that together, we can help researchers make a difference. Visit www.digital-science.com

› CITI PROGRAM,
A DIVISION OF BRANY .........................Booth 304
WWW.CITIPROGRAM.ORG

Online Education for Research Ethics and Compliance
CITI Program is a leading provider of research ethics and compliance education. Our web-based training materials serve millions of learners at academic institutions, government agencies, and commercial organizations in the U.S. and around the world. Learn more about our content offerings at citiprogram.org.

Come by our Booth and learn more about CITI Program Courses are available for the Following:
• Animal Care and Use
• Conflicts of Interest
• Good Clinical Practice
• Human Subjects Research
• Information Privacy and Security
• Responsible Conduct of Research
• Biosafety and Biosecurity
• Clinical Research Coordinator
• Clinical Trial Billing
• Disaster Planning for the Research Enterprise
• Essentials of Research Administration
• Export Compliance
• Good Laboratory Practice
• Healthcare Ethics Committee
• IRB Administration

› ERA SOFTWARE SYSTEMS, INC.;
SMARTGRANT SOFTWARE ....................Booth 309
WWW.SMARTGRANT.NET/

ERA Software Systems, Inc. has been providing high-end software solutions and support to the research community for over a decade. Today our flagship product, SmartGrant, is used every day by some of the nation’s most prolific research institutions to develop proposals, manage awards, track effort, deal with regulatory compliance, analyze data and more. SmartGrant is a truly comprehensive solution that can scale to any size operation and was designed by OSRP people for OSRP people.

ERA-SS has been a technology leader since receiving a Small Business Innovation Research (SBIR) grant to develop S2S technology. Continuing on this arc, ERA-SS’ SmartGrant software was the first S2S system to have a multi-project proposal successfully submit to NIH via Grants.gov. Recently, ERA-SS was tabbed as a Grants.gov testing partner for the new SHA-2 end point.
Exhibitor Abstracts

› GRANTFORWARD .................................Booth 308
WWW.GRANTFORWARD.COM

GrantForward Funding Search and Grant Recommendation Service powers up your award seeking to move your research forward. Built for academics and by academics, it originated from the University of Illinois at Urbana-Champaign and continues to innovate—claiming the FIRST and ONLY service that covers the complete award-seeking cycle—from sponsors, pre-solicitations, funding opportunities, to awarded projects. With advanced data harvesting from 12,000 sponsors worldwide for US researchers, GrantForward indexes more than 40,000 grants linked with one million awards that have been funded—so you know not only current opportunities but also what have been funded. As GrantForward is built for busy researchers, it provides not only search but also recommendation of grants. With precise researcher profiles and powerful recommendations, GrantForward completely automates and personalizes grant dissemination—so, no more newsletters from your grant office! The system is used by 300+ US higher education and research institutions, such as Yale, Cornell, CMU, U Wisconsin Madison, Rutgers, U Chicago, and the entire CUNY system. You can view a quick overview of GrantForward below—and more webinar/education materials at our YouTube channel.

› HANOVER RESEARCH .............................Booth 315
WWW.HANOVERRESEARCH.COM

Founded in 2003, Hanover Research is a global research and analytics firm that delivers market intelligence and grants support through a unique, fixed-fee model to higher education institutions around the world. Hanover employs high-caliber market researchers, analysts, and grants experts to provide a service that is revolutionary in its combination of flexibility and affordability.

Hanover’s grants solutions for higher education support institutions in their programmatic and academic research development efforts. Hanover’s grants professionals deliver customized proposal review, revision, and production support, while also helping to align their needs and strategic priorities to funding trends and federal, state, and foundation grant opportunities. Since 2012, Hanover’s team of expert Grants Consultants have helped clients secure more than $400 million in funding.

Grantseeking Capacity Development: Developing organizational capacity to pursue and manage grant funding, through training, strategic assessment, and benchmarking.

Funding Research: Identifying and evaluating grant opportunities aligned to client projects and funding needs, while facilitating planning through funded project research and forecasting.

Pre-Proposal Support: Facilitating assessment and development of competitive project concepts, helping clients to navigate funder requirements and build relationships prior to developing proposals.

Proposal Support: Supporting client-led grant proposals through review and revision support designed to ensure the strongest possible proposals are submitted.

Proposal Development: Leading proposal production projects as primary writer in close coordination with client teams and PIs.

Hanover’s partners enjoy many benefits, including submitting more competitive grants, developing a grantseeking culture and competency, finding the right grant opportunities for them, competing for large-scale center funding, building relationships that lead to funding and strategically positioning their grants operation.

Additionally, many institutions praise the partnership as an effective way to fill gaps in expertise and bandwidth among existing institutional resources.

To learn more about Hanover Research, visit www.hanoverresearch.com.

› HURON ..................................................Booth 105
WWW.HURONCONSULTINGGROUP.COM

Hurion is a global consultancy that helps our clients drive growth, enhance performance and sustain leadership in the markets they serve. We partner with them to develop strategies and implement solutions that enable the transformative change our clients need to own their future. Learn more at www.huronconsultinggroup.com.

 › IMEDRIS DATA CORPORATION ..........Booth 310
 WWW.IMEDRIS.COM

At iMedRIS we provide state-of-the-art Electronic Research Administration software. This innovative system called iRIS ("Integrated Research Information System") is a comprehensive, HIPAA compliant, research management system for every institution. Our configurable “Out of the Box” solution gives you the ability to customize system forms, workflows and Grants.gov (S2S) submissions without expensive development costs. Our suite of modules include: All compliance modules as well as grants modules including eProposal Assistant (Pre Award) eAward Assistant (Post Award) IRB Assistant Conflict of Interest IACUC Assistant IBC Assistant Scientific Review Study Assistant (CTMS) Come see us at booth #310.

 › INFOED GLOBAL .......................Booths 312 & 314
 INFOEDGLOBAL.COM/

Helping hundreds of institutions around the world grow and manage research portfolios for 25 years with configurable, turnkey software solutions. Grants and contracts, lab safety, animal research, human subjects, conflicts of interest, technology transfer, and more. Research administration without boundaries® Discover more at InfoEdGlobal.com.

 › INFOREADY CORPORATION ..........Booth 211
 WWW.INFOREADYCORP.COM

InfoReady’s flagship offering, InfoReady Review™, allows administrators to easily manage, streamline, and automate research funding competitions, including limited solicitations, mini-grants, seed grants, poster competitions, scholarships, or any other awards. Used by over 130 universities coast-to-coast, InfoReady Review is the go-to solution for offices of research that want to increase their capacity to submit for external funding, decrease their administrative workload, and improve quality of their solicitation and review process.

InfoReady Review™ is an easy to use SaaS Platform for managing internal competitions and routing processes. We help over 100 colleges and universities automate limited submission competitions, internal funding opportunities, fellowships, awards, and more. With InfoReady Review, you can easily collect, route, and review proposals for any internal competition online, reducing administrative burden by 95% and centralizing data for increased visibility.

 › JOHNS HOPKINS UNIVERSITY ............Booth 217
 ADVANCED.JHU.EDU/RESEARCHADMINISTRATION

As the nation’s first research university and the leading U.S. academic institution in total research and development spending, Johns Hopkins is uniquely positioned to deliver a high-quality, interdisciplinary Research Administration master’s degree program. The MS in Research Administration is designed to benefit research practitioners, including those currently working in higher education, university affiliated hospitals, not-for-profit organizations, government agencies, and independent foundations, as well as those who seek to begin a career in research administration. The program is now offering a new concentration and certificate in International Research Administration Management.

Johns Hopkins Advanced Academic programs offers additional graduate degree programs in Washington DC, Baltimore, Rockville MD, and online.

❯ KEY SOLUTIONS, INC. .........................Booth 306
WWW.KEYUSA.COM

Key Solutions provides web based Integrated Research Compliance & Administration Software for:
- Pre & Post-Award Grants Management (eGrants)
- Conflict of Interest (eCOI)
- Human Subjects (IRB)
- Stem Cell (SCRO)
- Chemical Safety (CSC)
- Controlled Substance (CS)
- Animal Facility Management (LARS)
- System-to-System (S2S)
- Material Transfer Agreement (MTA)
- Biosafety (IBC)
- Radiation Safety (RSC)
- Animal Subjects (IACUC)
- Post-Approval Monitoring (PAM)
- Animal Health Records (LAHS)

Key Solutions products are available via a subscription (SaaS) or an on-site license.

Key Solutions has an out-of-the-box software solution for speedy implementation. If and when you need customization, we have a knowledgeable, experienced staff to meet your needs. We are known for its collaborative approach to ensuring success. Ask our customers. Call 510 456 4500, Visit www.keyusa.com

❯ MAXIMUMS HIGHER EDUCATION, INC. .........................Booth 311
WWW.MAXIMUS.COM/HIGHER-EDUCATION

Serving more than 130 top academic research institutions, the MAXIMUS Higher Education Practice understands the challenges in achieving and maintaining compliance with federal regulation 2 CFR Part 200, “Uniform Administrative Requirements, Cost Principles, and Audit Requirement for Federal Awards.” Our professional staff delivers the highest level of consulting services to the academic research community, bringing a diverse team of experts with a broad array of experience across a universe of professions, including former higher education research directors and administrators, cost allocation specialists, facilities and administrative rate experts and technology consultants. Our industry-leading software tools include the Comprehensive Rate Information System (CRIS Long & Short Form), Effort Reporting System (ERS) and a web-based space survey tool (WebSpace). We provide a Compliance Risk Assessment (C/RA), as well as Sponsored Project Enhancements for educational institutions in the area of Research and Sponsored Projects Administration.

❯ NCURA PEER PROGRAMS ...............Booth 504
WWW.NCURA.EDU/INSTITUTIONALPROGRAMS.ASPX

NCURA Peer Programs: Improving Your Sponsored Programs and Research Compliance Operations. Whether your institution is research focused or predominantly undergraduate, the importance of providing quality services to your faculty in support of their research and scholarship is undeniable. NCURA Peer Programs offers a number of services to assist your research administration operations and to ensure a high-quality infrastructure that supports your faculty and protects the institution.

NCURA Peer Programs provide a team of nationally engaged senior research administrators, matched to an institution, who meet with stakeholders and conduct specific services. Our Standards function as the basis for all services. Whether helping to formulate strategic planning activities for research administration, providing in-depth education on a critical area, or conducting an assessment of sponsored programs or research compliance areas, the services bring unbiased and specific recommendations to assist research administration operations. Visit NCURA Peer Programs at booth 504 to request materials for the service of interest to you. Currently booking services for 2019.

Contact: Denise Wallen Director NCURA Peer Programs: NCURA Peer Review/Peer Advisory Services peerreview@ncura.edu

Kuali helps research offices simplify administration and compliance, maximize funding, and make more informed decisions. With modular, thoughtfully-designed software, Kuali SaaS solutions span the full sponsored projects lifecycle, including pre-award, post-award, and COI, as well as IRB and IACUC protocols. To learn more, visit www.kuali.co.

› NCURA HEADSHOT STUDIO ...................................................Booth 502
New this year - Step into our on-site headshot studio! When your photo session is finished, step over to the iPad kiosk to select your favorite photos and instantly share them via email, Twitter, Facebook or Instagram.

› NIH ELECTRONIC RESEARCH ADMINISTRATION (eRA) ..................Booth 110
ERA.NIH.GOV
NIH’s electronic Research Administration (eRA) provides system support for grants administration, including eRA Commons and ASSIST.

  eRA Commons is an online interface allowing NIH staff, applicants and grantees to exchange information about the administration of biomedical and behavioral research grants. Principal Investigators and Administrators use eRA Commons for a number of tasks, from tracking the status of grant applications submitted electronically to viewing their assembled applications. Post-submission, Commons provides the ability to check review assignments and to access review results. During Post-award, the Commons allows grantees to fulfill their reporting and closeout tasks.

  ASSIST is NIH’s on-line system for the preparation, submission and tracking of grant applications through Grants.gov to NIH. ASSIST is an option for the submission of all competing single and multi-project grant applications. It is quickly becoming the submission option of choice thanks to features like pre-submission validation of agency business rules and the ability to preview your application in the NIH format.

  Learn about eRA Commons and ASSIST or just bring your general questions about navigating eRA grants administration systems to our experts at the NIH eRA booth.

› NIH GRANTS INFORMATION ..........Booth 112
GRANTS.NIH.GOV
Do you have general questions about the NIH Grants Process? Stop by the National Institutes of Health (NIH) Grants Information booth for assistance. We provide general information about extramural research programs, policies, and the application process. In addition, we help applicants and grantees navigate NIH websites and resources from finding funding opportunities of interest to identifying appropriate contacts to address individual concerns. Printed resource materials are also available.

› NOVELUTION CORP ....................Booth 108
WWW.NOVELUTION.COM

Novelution: Novel and evolving solutions for research management

Novelution provides an innovative suite of research administration software, including fully integrated modules spanning Pre and Post Award Sponsored Research, Compliance (IRB, IACUC, Bio-safety, COI), Facilities Management, Content Management Systems (CMS), Clinical Trials Management Systems (CTMS), and other tools our partners need to support their research administration. We are quite different than other competitors in the market, with particular distinction relating to our extremely intuitive end-user experience, total accessibility on web and mobile devices, flexibility for unlimited customization, and many other very smart features.

Our core platform architecture was designed from the ground up to support ease of expansion and modification. If there is a feature we don’t currently have, we can easily and quickly add it. As a strategic solutions partner, our software is custom-built rather than custom-configured; as such, we have unlimited flexibility to create an ideal system for each partner. We work hand-in-hand with you to learn and customize our platform around your particular workflows, language, and unique needs, rather than you needing to fit your institution into the constraints of one-size-fits-all systems.

We incorporate smart integration between our modules, including enhanced workflow and routing efficiencies. We thoroughly avoid any redundant data entry between modules, supporting data integrity and compliance. Complex reports can leverage cross-module data analysis.

With a strong focus on intuitive user-experience, front-end design, smart and nimble backend architecture, and a zero-frustration support policy, Novelution helps our partners save valuable time and enhances the daily experience for administrators and research teams.
Exhibitor Abstracts

› NTM CONSULTING SERVICES, INC........................................Booth 215
WWW.NTMCS.COM/

Based out of Northern California, NTM has been developing and supporting innovative research management software solutions for nearly three decades. Our software, eSirius, is a suite of integrated applications which manage Research Compliance and Animal Facility workflow. Our team of technical and industry experts are dedicated to delivering software and support that our customers can count on. We have successfully implemented eSirius at many academic research institutions, not-for-profit research organizations, government research institutes, pharmaceutical companies, and biotechnology companies spanning the U.S. and Canada.

Solutions You Can Count On:
- IACUC Protocol Management
- IBC Protocol Management
- Training Records
- Animal Procurement
- Animal Inventory Management
- Veterinary Care Management
- Resource Scheduling NEW
- Service Charges
- Billing

› P.I. PROGRAM........................................Booth 317
INTEGRITYPROGRAM.ORG/

The P.I. Program helps researchers become more effective professionals. Using a career-coaching model, the program offers personalized assessments, a group workshop, and post-workshop coaching to help researchers operate professionally in today’s complex environments. Please visit our website to learn more about the program:

› PCORI (PATIENT-CENTERED OUTCOMES RESEARCH INSTITUTE)........................................Booth 113
WWW.PCORI.ORG

The Patient-Centered Outcomes Research Institute (PCORI) is an independent, non-profit organization authorized by Congress to fund research that provides patients and those who care for them with the evidence-based information needed to make better informed healthcare decisions. Visit our booth to learn about our application process, upcoming funding opportunities, and tips on how to manage your award. We can also help you with the the invoicing process and connecting you with relevant Program Officers and Contract Management staff.

› PRIORITY SOFTWARE, INC..............Booth 207
WWW.PRIORITYSOFTWARE.COM

Stop by Exhibit #207 and enter to win a FREE AMAZON ECHO DOT!

Since 1981 Priority Software’s cost accounting and reporting solutions as well as our core facility management system have been prominent choices among research intensive institutions. Our products are recognized as nationwide leaders due to their ease of use, functionality and cost effectiveness. All of our software products are web based and built on the latest technologies which easily integrate with your other existing tools and systems. Information is displayed graphically to any PC, Mac, and/or mobile device(s) with web access.

BA - Budget Accountant is cost accounting and reporting system which also provides reconciliation tools. BA, which integrates with central finance, serves as a front end combining institutional financials with departmental/divisional information. BA Allows users to supplement central financial transactions by adding projections and planning information to the BA database. BA even includes a Sponsored Programs Module at no extra cost! This means you can easily combine data from these systems with additional information known at the local department level (such as encumbrances, IDT’s, etc.) and then quickly and easily provide reconciled reports across your entire budget and project periods in a variety of more easily understood formats. In fact, you are able to provide your management staff and PIs with auto email alerts in addition to real-time and realistic financial information since all of your accounts from every funding source are now available in one place.
Exhibitor Abstracts

PRIORITY SOFTWARE, INC. continued
If you can get to the web, you can access your data. No need to install any programs. See real time, up to the minute data on every account you manage. And coming soon you’ll be able to access BA4 on the go from your smartphone!

FBS - Facility Billing System and LIMS is a core facility management system which automates and manages your billing, invoicing, scheduling, usage analyses and inventory tracking needs and allows your lab/shared/core facilities to provide paperless, automated and timely chargeback recovery. FBS, which integrates with central finance and your other existing systems, can validate the grant accounts being used to pay for services prior to services being rendered or invoices being submitted. FBS can also eliminate internal requisitions by preparing the journal entry needed to transfer funds (from grant account to facility income account) and submitting it electronically to central finance providing an almost immediate means of payment. It eliminates data entry, and allows you to create invoices with a single click. FBS can also handle external customers. Accounts receivables are tracked in the system and automatic late notices can even be sent at set intervals on those invoices for which payment has not been received. All billing information retained in FBS is available to be generated as a variety of reports. FBS can allow your facility to subsidize member usage to maintain the same recharge rate to all users, and much more. Usage data can be assessed by investigator or by service/product. Reports can be run for any time period. Reports run from the website can be downloaded in Excel and saved or shared. Simply put: FBS provides a consistent way for facilities to regularly invoice and receive payment, all done paperlessly via the web quickly and easily.

Visit us on the web at www.prioritysoftware.com to learn more, or call today to schedule a free on-line product demonstration (205) 202-8400 x 66.

RESEARCH ADMINISTRATORS CERTIFICATION COUNCIL (RACC) . Booth 209
WWW.RACC-CERT.ORG/
The Research Administrators Certification Council was formed in 1993 as an independent non-profit organization. Its purpose is to certify, by means of an independent examination process, that an individual has the fundamental knowledge necessary to be a professional research or sponsored programs administrator. The Council currently administers three examinations: Certified Research Administrator® (CRA), Certified Pre-award Research Administrator (CPRA®), and Certified Financial Research Administrator (CFRA).

STREAMLYNE .........................Booths 506 & 508
STREAMLYNE.COM

Streamlyne was created to empower efficiency in all organizations. Streamlining your organization brings more than just cost savings or enabling you to get more done in less time. At its heart, it gives you the agility to move quickly and the strength to accomplish your goals. We are here to help you work better, not more. Because our SaaS software is in the cloud, it comes with the advantages of simplified deployment, disaster recovery, easy upgrades, and anytime, anywhere access. With our configuration toolkit and plug-in customization framework, you can have a solution that fits your exact needs at a minimal cost. Powerful reporting and dashboards are also essential, because if you can’t produce reports on your data that provides you with actionable information to improve your organization, then you only have a partial solution. On top of all that, our ‘no vendor lock-in’ model provides you with peace of mind, because at the conclusion of our business you are free to take your data back and run our software yourselves in-house.

❯ VINCENT PAYMENT SOLUTIONS ......Booth 213
VINCENTPAY.COM

GET BACK IN CONTROL OF INDIVIDUAL PAYMENTS ACROSS YOUR ORGANIZATION WITH VINCENT.

Vincent’s payment solutions put you in control of individual disbursements of any size. Large institutions can manage every step of the payment cycle, starting on the front end and completing a seamless cycle back to the general ledger. Our cloud-based software maximizes efficiency and eliminates manual, error-prone financial processes.

❯ VISUAL COMPLIANCE .........................Booth 111
WWW.VISUALCOMPLIANCE.COM

About Visual Compliance®

For over 35 years eCustoms and Visual Compliance have helped universities and research institutions meet their fundamental export control requirements—reducing the risk of non-compliance, increasing the efficiency of export controls, and providing reliable support throughout the process. Working with over 300 universities and research institutions, we have taken the learning from thousands of interactions to heart. As such, we understand your needs.

With industry-leading screening and classification tools, eCustoms’ Visual Compliance—Research Edition™ helps you stay compliant while providing the ability to demonstrate due diligence and the intent to comply when subject to a government compliance review. They include:

• Restricted Party Screening tools are a full suite of innovative solutions that were designed so organizations can screen the way they want to and when they want to with confidence;
• Compliance Manager works hand-in-hand with Visual Compliance’s Restricted Party Screening modules by providing workflows that aid with due diligence, the vetting of results, and other post-screening compliance activities;

• Export Classification modules simplify the complexities of export and tariff classification, and cover the extensive ECCN, USML, EU, ECR, Schedule B, and U.S. and EU controlled goods classification requirements;
• Visitor and Travel solutions manage interactions with foreign nationals on U.S. soil, and avoid the inadvertent transfer of technology while travelling;
• I-129 component assists in the hiring of foreign nationals by automatically collecting, processing and submitting all the necessary information required for your I-129 Part 6 Certification process;
• Material Transfer Agreements (MTA) Workflow centralizes and streamlines your MTA process while allowing you to simultaneously screen individuals, countries and companies associated with your material transfers and record your activity;
• Export Documentation Manager™ helps you to create export documentation and perform essential compliance activities, license determination and AES submissions—all with one solution; and
• Integrated Screening option can further bolster your export control process by ensuring that everyone in your system—regardless of business system or ERP—is screened automatically at any point (or multiple points) in your workflow.

To discuss how Visual Compliance and Visual Compliance—Research Edition can help you, please drop by our booth for a chat.
