CAYUSE ~ BOOTH 11
www.cayuse.com
NCURA GOLD MEMBER SPONSOR

Cayuse delivers a full end-to-end suite of software tools that drive productivity, transparency, and data analytics for today’s modern research organizations.

Our mission began in 1994 when Chris Harker, PhD at Oregon Health & Science University recognized a vision to ease the day-to-day of a researcher. In developing solutions to fulfill this mission, Cayuse quickly amassed a large and loyal customer base. Serving over 315 research clients worldwide, including one-third of the top-100 by award volume, our clients success has always been our priority.

We continue Dr. Harker’s mission today through execution of our vision to provide a fully integrated SaaS software suite for pre and post award solutions, as well as compliance and facility software. For more about our vision and product suite, please visit www.cayuse.com.

ERA SOFTWARE SYSTEMS, INC. ~ BOOTH 14
www.smartgrant.net/

ERA Software Systems, Inc. has been providing high-end software solutions and support to the research community for almost two decades. Our flagship product, SmartGrant, is used every day by some of the nation’s most prolific research institutions to develop proposals, manage awards, track effort, deal with regulatory compliance, analyze data and more. SmartGrant boasts an ultra-sophisticated budget engine, a S2S module that eliminates double entry and world-class support. SmartGrant is a truly comprehensive solution that can scale to any size operation and was designed by OSRP people for OSRP people.

ERA-SS has been an eRA leader since receiving a Small Business Innovation Research (SBIR) grant to develop S2S technology. Continuing on this arc, ERA-SS’ SmartGrant software was the first S2S system to have a multi-project proposal successfully submit to NIH via Grants.gov.

EX LIBRIS, A PROQUEST COMPANY ~ BOOTH 13
www.exlibrisgroup.com

Ex Libris, a ProQuest company, is a leading global provider of cloud-based solutions that enable institutions and their individual users to create, manage, and share knowledge. In close collaboration with its customers and the broader community, Ex Libris develops creative solutions that increase library productivity, maximize the impact of research activities, enhance teaching and learning, and drive student mobile engagement. Ex Libris serves over 7,500 customers in 90 countries. For more information, see our website and join us on LinkedIn, YouTube, Facebook, and Twitter.

HURON ~ BOOTH 16
www.huronconsultinggroup.com/
NCURA GOLD PLUS MEMBER SPONSOR

Huron is a global consultancy that helps our clients drive growth, enhance performance and sustain leadership in the markets they serve. We partner with them to develop strategies and implement solutions that enable the transformative change our clients need to own their future.

IMEDRIS DATA CORPORATION ~ BOOTH 6
www.imedris.com

iMedRIS provides state-of-the-art electronic research administration software in the form of an innovative research compliance and administration management system called iRISTM (“Integrated Research Information System”). iRISTM is the most versatile and comprehensive research software suite available to the research community. iMedRIS offers a pre-configured system that can be completely customized to institutional needs providing a framework application that empowers institutions with intuitive tools needed to optimize research operations by eliminating inefficiencies and increasing productivity. Some of our core iRIS modules include: IRB Assistant, IBC Assistant, IACUC Assistant, COI Assistant, eProposal Assistant (Pre-Award).
INFOED GLOBAL ~ BOOTH 5
infoedglobal.com

InfoEd makes you better. Our products bring order and structure into the complex world of research compliance. Business needs are complex and our 30 years of experience paired with collaboration with our institution partners, has enabled us to develop the most comprehensive systems available. We have streamlined the data collection, workflow and routing and recording needs. While our system works out of the box, it is highly configurable to meet any institution specific needs.

JOHNS HOPKINS UNIVERSITY
~ BOOTH 2
Advanced.jhu.edu/researchadministration
NCURA SILVER CONTRIBUTING SPONSOR

As the nation’s first research university and the leading U.S. academic institution for the past 38 years in research expenditures, Johns Hopkins is uniquely positioned to deliver a high-quality, interdisciplinary Research Administration master’s degree program. The MS in Research Administration is designed to benefit research practitioners, including those currently working in higher education, university affiliated hospitals, not-for-profit organizations, government agencies, and independent foundations, as well as those who seek to begin a career in research administration. The program is now offering a new concentration and certificate in International Research Administration Management.

KING ABDULLAH UNIVERSITY OF SCIENCE AND TECHNOLOGY
~ BOOTH 12
www.kaust.edu.sa/en/research/sponsored-research#OSR

KAUST aspires to be a destination for scientific and technological education and research. By inspiring discoveries to address global challenges, we strive to serve as a beacon of knowledge that bridges people and cultures for the betterment of humanity.

KAUST advances science and technology through distinctive and collaborative research integrated with graduate education. We are a catalyst for innovation, economic development and social prosperity in Saudi Arabia and the world.

KAUST believes that personal fulfillment and discovery are integral aspects of a rewarding professional life, the university makes it easy for faculty, staff and postdocs to balance their professional responsibilities with other aspects of their lives.

KAUST provides ample opportunities and time to keep work and life in harmony – from vacations and holidays to an inviting campus community on the shores of the Red Sea, with all the seaside amenities and recreation facilities of a fine resort.

The Office of Sponsored Research (OSR) supports research at KAUST from ideas to impact.

Ideas are the focus of our Research Services unit, as the unit works with KAUST researchers to develop research projects internally or with best-in-class global collaborators. Our Competitive Research Funds unit employs a global peer review process to discern which ideas are the most meritorious and strategic, and therefore warrant investment of KAUST resources. Our Research Evaluation unit focuses on impact, as the unit evaluates outcomes of basic and goal-driven research and examines how these should guide future actions.
Kuali ~ Booth 3
www.kuali.co
NCURA Gold Plus Member Sponsor

Kuali creates administrative software modules specifically for higher education. Kuali Research is a versatile grants management system that allows users to smoothly manage the entire research lifecycle. From Proposal, COI, Award, Subawards and Protocols, Kuali ensures transparent collaboration throughout the process. As a true SaaS solution, Kuali serves its customers by continuously delivering value to ensure their success.

NCURA Peer Programs ~ Booth 4
www.ncura.edu/InstitutionalPrograms.aspx

NCURA Peer Programs: Improving Your Sponsored Programs and Research Compliance Operations.

Whether your institution is research focused or predominantly undergraduate, the importance of providing quality services to your faculty in support of their research and scholarship is undeniable. NCURA Peer Programs offers a number of services to assist your research administration operations and to ensure a high-quality infrastructure that supports your faculty and protects the institution.

NCURA Peer Programs provide a team of nationally engaged senior research administrators, matched to an institution, who meet with stakeholders and conduct specific services. Our Standards function as the basis for all services. Whether helping to formulate strategic planning activities for research administration, providing in-depth education on a critical area, or conducting an assessment of sponsored programs or research compliance areas, the services bring unbiased and specific recommendations to assist research administration operations.

Visit the NCURA Peer Programs booth to request materials for the service of interest to you. Currently booking services for 2019 and 2020.

Kris Monahan, Director, NCURA Peer Programs: NCURA Peer Review/Peer Advisory Services peerreview@ncura.edu

Research Administrators Certification Council (RACC) ~ Booth 15
www.cra-cert.org

Research Administrators Certification Council (RACC) is a private, independent, nonprofit organization that develops and administers a voluntary program for the certification of individuals who meet the requirements established by the Council. The Council is composed of volunteer individuals committed to the continuing improvement of the research administration profession and to assisting in the education and training of individuals who wish to become proficient in this field. Through the Body of Knowledge and the certification process, the Council provides those entering the field with a training guide and a goal by which they can measure themselves as professionals.

The Council consists of representatives from a variety of settings, including institutions of higher education, hospitals, private businesses, research institutes and foundations, governmental organizations, national professional organizations, and private educational and research consulting firms.

Streamlyne ~ Booth 1
https://streamlyne.com
NCURA Gold Member Sponsor

Streamlyne was founded in 2003 and created to empower efficiency in all organizations. Streamlyne Research is a research administration solution that includes modules in the areas of Pre-Award, Post-Award, research compliance, and reporting. This comprehensive eRA suite allows for seamless transfer of information between the different components of the software, reducing redundant data entry. Our intuitive interface and robust features help you glide through the research administration lifecycle, so you can get more done in less time. The Streamlyne professional services team are experts at the implementation of Streamlyne Research and integration with your other enterprise systems. With the agility to move quickly and the strength to accomplish your goals, Streamlyne can help you maximize funding and ensure compliance at your institution.
